

## Baby Registry Checklist

It's always helpful to have a checklist on hand when trying to put together the ultimate baby nursery, especially if you're first-time parents. We want to help make this project as easy as possible for our customers, so although all products on this list are not available at NewBornMom – we have still provided you with the most complete checklist possible for your convenience.

All products marked with a  mean they are eco-friendly and available at NewBornMom. The quantities shown next to each item are just guidelines for the amounts needed during first weeks. Many of these things will have to be replenished as needed. Products that don't show a guideline quantity next to them are considered "optional" instead of essential; therefore we have left quantities for those items blank for each family to decide.

### **Clothes:**
